

PUBLIC ACCESS REPORTING

- Save time, money & labor.
- You determine which reports you want to make available to the Public 24 x 7.
- You establish what you want to charge for the reports.
- No upfront cost for software, installation, training and support.

- Software support and enhancements, for this module, will be provided at no charge.
- We'll setup customized searches for reports from a link on your Website.
- Sensitive information on any report can be redacted on single or multi-page reports.
- Reports are immediately available to public within minutes of indexing and submission.
- Revised reports will overwrite previous report.
- Public reports are housed in a secure environment and available via the Internet.
- All financial transactions are secure using SSL certificate.
- An over-the counter workstation (Agency), can be setup at the Records Clerk counter to support walk-ins.
- Cost for this module is a convenience fee to the public (including Insurance Co, Attorney's) on a per report basis, determined by volume - monies collected in excess of the convenience fee will be distributed quarterly to the Agency.
- 800 number for Agency and end-user assistance.

Optional: Total Automation with Integration of SI-3000 Document Imaging and linking of all scanned images to your RMS database .

Agency Hardware Requirements: A Twain Compliant Scanner and a Windows XP or Vista PC, Printer for over-the-counter reports.
